Programme Outcomes

On successful completion of this programme the learner will be able to :

Description
Develop core knowledge, skills and competence of emerging digital technologies and digital business transformation that can be readily utilised in business contexts.
Generate insights using industry-agnostic frameworks, tools and methodologies for each of the emerging technologies and make use of this information to solve real world business problems.
Analyse, design, implement and document a digital business transformation solution that applies emerging digital technologies for a specific business domain case study to enhance the business performance.
Demonstrate enhanced communication, presentation, teamwork and problem-solving skills.
