Programme Code	BAHAWE	Programme Duration	4				
Programme Level	8			EQF Level	6	EHEA Level	First Cycle
Programme Credits	240						
Semester Duration		0 Week(s)					
Language of Instruction		English					
CAO Code; QQI Progamme Code etc		Code					

Programme Outcomes On successful completion of this programme the learner will be able to:

Description

Articulate and apply conceptual knowledge in the broad area of education and learning throughout the lifespan.

Demonstrate and apply specialist knowledge in one specific context as either Early Childhood Education or Adult and Workforce Education.

Apply an integrated and comprehensive understanding of various theoretical perspectives on learning and development as discussed in the current literature with particular emphasis on Adult & Workforce Education.

Apply an integrated and comprehensive understanding of the way various educational theories are related to teaching/instructional strategies, assessment methods, and educational practices.

Demonstrate an integrated and systematic understanding of relevant legal and regulatory frameworks.

The ability to guide others to achieve learning in others

Critically discuss and decide on the appropriate application of methods, scaffolds and instructional approaches to enable effective learning.

Apply an integrated and systematic understanding of the current literature on educational assessment and feedback-for-learning and how feedback/assessment can be used to facilitate learning.

The practical skills of teaching or managing learning spaces appropriate for the setting

Demonstrate an integrated and systematic understanding of how technology can be used to facilitate the learning and development.

Manage learning environments so they are safe, effective and conform to regulatory requirements

Guide, nurture and facilitate learning in others

Guide, nurture and facilitate learning in AWE settings

Develop teaching and learning strategies appropriate for specific contexts, test the effectiveness of employing these strategies, and evaluate the outcome of their implementation.

Awareness of and ability to operate within the professional standards associated with classrooms and training environments in workplace and community settings.

Manage others and lead learning in workplace contexts

Design for learning

Demonstrate initiative, leadership, and follow-through in working with peers and other professional educators in planning curricula and developing and evaluating educational programs.

Students will be competent communicators capable using skills of writing, media and oral presentation to convey key messages associated with their profession and in a manner appropriate to the various target audiences (e.g. learners and colleggues).

Direct and manage one's own learning

Act autonomously and think independently

Demonstrate an interest in professional development by consulting journals, attending conferences, and engaging in professional discussions with peers.

Students will have skills to collaborate and problem solve in a group

Students will present a portfolio of their experience in college including participation in voluntary and service-learning activities

Engage in scholarly reflection on practice

Demonstrate a capacity for critical thinking, focused and informed argument, identification of boundaries, comparison and analysis of key issues involved in learning and teaching.

Formulate and communicate judgements with incomplete or limited information

Demonstrate an ability to identify and coherently present insights on current best-practices and research findings to other professionals, parents and stakeholders.

Discuss when, where, and if various types of technology should be used as part of the instructional process to facilitate student learning.

Students will have skills to be sensitive to other peoples' needs and points-of view

Semester Schedules

Stage 1 / Semester 1

Core Subject	ore Subject		
Module Code	Title		
H6AC	Argument and Critique		
H6BLR	Building Learning Skills		
H6ILL	Introduction to Lifelong Learning		
LIGHT OF THE STATE			
H6IPSYCH	Introduction to Psychology		
LIGNALY	Making Learning Visible		
H6MLV	Making Learning Visible		
Optional			
Module Code	Title		
H6EAP	English for Academic Purpose		

Stage 1 / Semester 2

Core Subject		
Module Code	Title
