H6INCOM: Introduction to Computers

| Module Code: | | 6INCOM | | | |
|---|--|--|--|--|--|
| Long Title | | Introduction to Computers APPROVED | | | |
| Title | | Introduction to Computers | | | |
| Module Level: | | LEVEL 6 | | | |
| EQF Level: | | 5 | | | |
| EHEA Level: | | Short Cycle | | | |
| Credits: | | 5 | | | |
| Module Coordinator: | | PRAMOD PATHAK | | | |
| Module Author: | | Helen Power | | | |
| Departments: | | | | | |
| Specifications of the qualifications and experience required of staff | | | | | |
| Learning Outcomes | | | | | |
| On successful co | mpletion of this modu | ile the learner will be able to: | | | |
| # | Learning Outcome | Description | | | |
| L01 | LO 1. Describe what | be what a digital computer is and how data is processed | | | |
| LO2 | LO 2. Identify how bu | Identify how business application software supports the business endeavour | | | |
| LO3 | LO 3. Discuss the wa | ss the ways in which business application software is acquired and Implemented | | | |
| LO4 | LO 4. Illustrate the data storage, organisation and management techniques supporting data processing applications as well as understanding the fundamentals of networking. | | | | |
| LO5 | LO 5. Identify the cha | Identify the challenges posed by information systems security and control and management solutions | | | |
| LO6 | LO 6. Demonstrate technical skills in a range of business application software tools | | | | |
| Dependencies | | | | | |
| Module Recommendations | | | | | |
| No recommendations listed | | | | | |
| Co-requisite Modules | | | | | |
| No Co-requisite modules listed | | | | | |
| Entry requirements | | | | | |

H6INCOM: Introduction to Computers

| Module Content & Assessment | | | | | |
|---|---|---|-------------------------------|--|--|
| Indicative Content | | | | | |
| Introduction to Computing (20%) • Introduction to computers • Types of computers • History of computing • Typical Components of a Computer System o Overviews of Architecture o Processing o Memory and Storage Devices o Input:Output | | | | | |
| Software Fundamentals (15%) • Introduction to Software • System software • Applications software – end-user tools • Applications - bespoke systems and software packages | | | | | |
| Software Package sourcing and evaluation (5%) • Advantages and disadvantages of developing bespoke applications or buying application software packages • The Vendor marketplace • The Request for Proposals • Evaluating Vendor Proposals | | | | | |
| Networking Fundamentals (20%) • Communications media and channels • W network applications | Networking Fundamentals (20%) Communications media and channels • Wireless and mobile computing • Communications hardware and protocols • Centralised and distributed systems • Networks and network applications | | | | |
| Data organisation and management fun • Introduction to Data Management • File p | damentals (20%) processing and organisation • Da | atabase management systems • Database archit | ectures | | |
| Security Management (20%) • Principles of Security Management • Physical Security • Systems Security and control • Special Security Considerations • Tools and Technologies for Safeguarding Info. Systems • Business Recovery Planning and Disaster Recovery Planning | | | | | |
| Practical Element n/a | | | | | |
| Introduction to the Operating Environment • The Windows Environment • Common user interface • Multitasking • Shared resources • Features of Windows • Running applications • Customising the desktop | | | | | |
| • How to send email • How to connect to th | ne Internet • Using the Internet a | and the WWW | | | |
| End-user applications support tools n/a | | | | | |
| Spreadsheets • Entering data and printing • Using formula | ae • Using scroll bars • Saving a | a workbook • Using built-in functions • Presentatio | on features • Creating charts | | |
| Database • Creating tables • Simple queries • Simple | Reports | | | | |
| Word Processing • Creating and saving documents • Presen | itation of documents • Advanced | Features of Word Processing Software | | | |
| Presentation Software • Creating dynamic presentations | | | | | |
| Internet • Searching and browsing • Basic web pag | je creation | | | | |
| Teaching methodology: The learning strategy involves the use of le | ectures, tutorials, practicals, cas | e studies and class discussions as appropriate. | | | |
| Assessment Breakdown % | | | % | | |
| Coursework 44 | | | 40.00% | | |
| End of Module Assessment 60.00% | | | 60.00% | | |
| Assessments | | | · · | | |
| Full Time | | | | | |
| Coursework | | | | | |
| Assessment Type: | Assianment | % of total: | 40 | | |
| Assessment Date: | n/a | Outcome addressed: | 1,2,3,4,5,6 | | |
| Non-Marked: | No | | | | |
| Assessment Description: n/a | | | | | |

| End of Module Assessment | | | | |
|--|-----------------|--------------------|----|--|
| Assessment Type: | Terminal Exam | % of total: | 60 | |
| Assessment Date: | End-of-Semester | Outcome addressed: | | |
| Non-Marked: | No | | | |
| Assessment Description: End-of-Semester Final Examination | | | | |
| No Workplace Assessment | | | | |

H6INCOM: Introduction to Computers

| Module Workload | | | | | | |
|--------------------------------------|----------------------|---------|---------------|------------------------------------|--|--|
| Module Target Workload Hours 0 Hours | | | | | | |
| Workload: Full Time | | | | | | |
| Workload Type | Workload Description | Hours | Frequency | Average Weekly Learner Workload | | |
| Lecture | No Description | 2 | Every Week | 2.00 | | |
| Lab | No Description | 1 | Every Week | 1.00 | | |
| | Total W | eekly C | ontact Hours | 3.00 | | |
| Workload: Part Time | | | | | | |
| Workload Type | Workload Description | Hours | Frequency | Average Weekly Learner Workload | | |
| Lecture | No Description | 2 | Every Week | 2.00 | | |
| Total Weekly Contact Hours | | | 2.00 | | | |

| Module Resources | | | | |
