

## H06ID: Introduction to Databases

Module Code:	H06ID
Long Title	Introduction to Databases <b>APPROVED</b>
Title	Introduction to Databases
Module Level:	LEVEL 6
EQF Level:	5
EHEA Level:	Short Cycle
Credits:	5
Module Coordinator:	PAUL HAYES
Module Author:	PAUL HAYES
Departments:	School of Computing
Specifications of the qualifications and experience required of staff	
<b>Learning Outcomes</b>	
<i>On successful completion of this module the learner will be able to:</i>	
<b>#</b>	<b>Learning Outcome Description</b>
LO1	Identify and analyse current trends in database systems
LO2	Describe and apply data model concepts
LO3	Comprehend and evaluate the relational database concept
LO4	Design, implement and administer a database system with an appropriate database package
LO5	Formulate advanced SQL commands to manipulate the structure of a database and its contents
<b>Dependencies</b>	
<b>Module Recommendations</b>	
No recommendations listed	
<b>Co-requisite Modules</b>	
No Co-requisite modules listed	
<b>Entry requirements</b>	

# H06ID: Introduction to Databases

Module Content & Assessment			
Indicative Content			
<b>Introduction to Databases (15%)</b> Introduction to Databases Traditional File-Based Systems The history of Database Management Systems Roles in the Database Environment Functions of a DBMS Components of a DBMS Advantages and Disadvantages of Database Management Systems DBMS Selection Data Administration and Database Administration The Web as a Database Application Platform Hierarchical, Network and Object-Oriented Data Models Relational versus Non-Relational			
<b>The Relational Model (15%)</b> Introduction to the Relational Model Properties of Database Tables Integrity Constraints Views When is a DBMS Relational?			
<b>Database Planning, Design, and Administration (10%)</b> Overview of the Information Systems Lifecycle The Database Application Lifecycle Overview of Database Design. Application Design			
<b>Data Modelling (10%)</b> Introduction to data modelling The Concepts of the Entity-Relationship Model Structural Constraints The Enhanced Entity-Relationship Model Guidelines for a well-formed E-R diagram Converting from conceptual data model to logical data model Deriving relations from logical data model			
<b>Normalisation (10%)</b> The Purpose of Normalisation Data Redundancy and Update Anomalies Functional Dependencies The Process of Normalisation First, Second and Third Normal Forms Boyce-Codd Normal Form (BCNF) Higher Normal Forms Denormalisation impact and strategies			
<b>SQL: Structured Query Language (25%)</b> Introduction to SQL Evolution of SQL Writing SQL Commands Data Definition Language • Data Manipulation			
<b>Advanced SQL Features (15%)</b> Introduction SQL Access Control: authorisations in SQL, system and user privileges, granting and revoking privileges Views Integrity Enhancement Features of SQL Advanced Data Definition			
Assessment Breakdown			%
Coursework			50.00%
End of Module Assessment			50.00%
Assessments			
Full Time			
Coursework			
Assessment Type:	Test One	% of total:	20
Assessment Date:	Week 6	Outcome addressed:	1,2,3
Non-Marked:	No		
Assessment Description:	n/a		
Assessment Type:	Assignment	% of total:	5
Assessment Date:	Week 8	Outcome addressed:	4
Non-Marked:	No		
Assessment Description:	n/a		
Assessment Type:	Test Two	% of total:	25
Assessment Date:	Week 11	Outcome addressed:	5
Non-Marked:	No		
Assessment Description:	n/a		
End of Module Assessment			
Assessment Type:	Terminal Exam	% of total:	50
Assessment Date:	End-of-Semester	Outcome addressed:	1,2,3,4,5
Non-Marked:	No		
Assessment Description:	End-of-Semester Final Examination		
No Workplace Assessment			
Reassessment Requirement			
<b>Repeat examination</b> <i>Reassessment of this module will consist of a repeat examination. It is possible that there will also be a requirement to be reassessed in a coursework element.</i>			

## H06ID: Introduction to Databases

Module Workload				
Module Target Workload Hours 0 Hours				
Workload: Full Time				
Workload Type	Workload Description	Hours	Frequency	Average Weekly Learner Workload
Lecture	No Description	2	Every Week	2.00
Lab	No Description	1	Every Week	1.00
Independent Learning	No Description	7.5	Once per semester	0.63
Total Weekly Contact Hours				3.00
Workload: Part Time				
Workload Type	Workload Description	Hours	Frequency	Average Weekly Learner Workload
Lecture	No Description	24	Every Week	24.00
Lab	No Description	12	Every Week	12.00
Independent Learning	No Description	89	Once per semester	7.42
Total Weekly Contact Hours				36.00
